

Valor Equity Partners is pleased to announce its investment in All Smiles Dental Center, Inc.

All Smiles Dental Center, Inc. (“All Smiles” or the “Company”) is one of the leading providers of administrative and support services to dental providers at 51 clinics and five mobile dental units in Texas. The Company’s affiliated dentists offer a full range of dental services, including general dentistry, endodontics, orthodontics, pedodontics, and oral surgery.

Founded in 2002, All Smiles and its affiliated dentists focus on providing services to patients who have had limited access to dental care, primarily low income children in the Hispanic community. The Company’s mobile dental program further increases access to quality dental care for children by supporting dentists in providing a full range of services to public school students who may not have access to clinics due to transportation or other logistical barriers.

Valor Equity Partners’ investment in All Smiles represents its sixth platform in Valor Equity Partners II L.P. and 50th investment since 1995.
